

Stand Up

Toxik

This is the New World Order, say a prayer for one and all
God help our sons and daughters, on a mission to divide us all
Speak now, or forever hold your peace,
Crackdown, a nation under siege
Blackout, they never tell the truth
You're living in denial cause you heard it on the news?

What the fuck...

No work, handout from the government, nothing made in the USA
Lost out on the dream of America, now we're living day to day
Outsourced, made in a foreign land
While homes, are taken from the workin man
Breakdown, it never worked for you..
I'm telling you the truth now whatcha gonna do?

I won't be your fucking slave, and we won't fight the wars you
wage
Stand up..
We want to hear you
Stand up
They're gonna fear you
Stand up
You ready now?
Time to take the bastards down!

World Bank, The final slaughter, been down for way too long
Pissed on this once great nation, old glory, long-since gone
Enough, cause I'm about to break
Not much, more that I can take
Wake up, enemy of the state
Big Brother always watching, be careful what you say

I won't be your fucking slave, and we won't fight the wars you
wage
Stand up..
We want to hear you
Stand up
They're gonna fear you
Stand up
You ready now?
Time to take the bastards down!
Stand up, stand up, stand up, stand up

Stand up!
