

Straight Razor

Toxik

Black magic left me tragic
With scars on my soul
After she left
I was lost in a hole

I tried reconnecting
But it was too late
I swore I'd get vengeance
My world filled with hate

Ooh straight razor
The power brings me down to my knees
Ooh straight razor
You got what I want, I've got what you need

Confusion the illusion
It makes my head spin
A bringer of evil
The devil's own kin

You kissed lots of boys
Just wouldn't kiss me
Now I'll kill you all
I hope you're happy

Ooh straight razor
My power brings you down to your knees
Ooh straight razor
Denied my affection so now you'll all bleed
(Bleed, bleed, bleed, bleed
Bleed, bleed, bleed, bleed
Bleed, bleed, bleed, bleed
Bleed, bleed, bleed, bleed)

Into the crowd
With both barrels blazing
My personal rapture
Send your souls raising

Up to the sky
For a greater purpose
As I fall to hell
A coward who's blameless

Ooh straight razor
My power brings you down to your knees
Ooh straight razor
Denied my affection so now you'll all bleed

Ooh straight razor
I put the gun up to my head
Ooh straight razor
You'll never get justice, I'm already dead
