

Electronic

TQ

Everything so electronic
im on it
style so fresh
they tryin to clone it
you know what it is
you know what it does
im what it is
you what it was
mr fiber optic
fresh out the hood
straight to the starship
flow so fly
come with a cockpit
non narcotic
is electronic

but now its electronic
electronic
everything is electronic
electronic
even if its electronic
its gangsta because im on it
but now its just electronic
electronic
everything is electronic
electronic
even if its electronic
its gangsta because im on it

i think it must have been a saturday
i had my doggs all in my rover gettin faded
and i pop that 2pac in
and everybody start dancin
why cant nobody make us feel this way (today)
everytime im in the club gotta wait so long
i just wanna hear my baby song
if you dont understand what im goin through
let me explain to you

i see the girls startin to stand on the bar
the homies pooring alcohol on the floor
if you dont understand what im goin through
let me explain to you

its that ghetto, funk
that original
bump in the projects
bump in the barrio
this that
when you hear it up in the stereo
turn up loud
so everybody can hear it tho

its ya boy vill
surfin on your airwaves
electronic sound for your ear paves
then ill be chatterin through your bluetooth

ba\$s so high you dont need to eq
i dont rap tracks this kama sutra
yall in the past
we pa\$sed the future
and we still keep it gangsta baby
vill & tq better watch ya lady
