

Better Off

Trace Adkins

Everybody's goin' out tonight
But I got somethin' else on my mind and a
Long list of reasons why
We're better off stayin' in
I've been missin' you all week
A little one on one that's what I need
A little me and you party yeah we're better off if we

Put the lock on the door
Drop the needle on the record
Kick your shoes on the floor
Turn this night on to eleven but
Those thoughts in your head and
Those pillows on your bed and
That dress these lights

They're all better off
They're all better off

I love that lipstick on your lips
But if it fades with every kiss then
Let me tell it like it is
It's better off better off

Put the lock on the door
Drop the needle on the record
Kick your shoes on the floor
Turn this night on to eleven but

Those thoughts in your head and
Those pillows on your bed and
That dress these lights
They're all better off
Yeah better off

Everybody's goin' out tonight
But I've got somethin' else on my mind
Put the lock on the door
Drop the needle on the record
Kick your shoes on the floor
Turn this night on to eleven
Those thoughts in your head and
Those pillows on your bed and
That dress these lights

They're all better off
They're all better off
Yeah that dress these lights
They're all better off
