Ride

Trace Adkins

Take a trip from here

Bogalusa, Baton Rouge New Orleans, Picayune Boloxi, Pascagoula Mobile Bay,Big full moon Diesel up just north of Destin Headed cross to Jacksonville Love to see the world come at me Through the bugs On a big windshield Yeah, that's right

Tear it down in Raleigh-Durham Haven't got an hour to lose Head up to the coast to Virginia Read the newest Newport News Back across the Appalachians Blowin' into Louisville Love to feel the big wheels turnin' Always have and always will

Somewhere inside me There's a new direction Somewhere before me There's an open road Can't go to sleep Without that diesel singin' Somebody tellin' me It's time to go Let's ride Come on boys, let's ride Come on boys, let's ride

Little Rock, Texarkana, Dallas, Fort-Worth and El Paso A hundred and ten in the desert Pedal down Go dog go Always love to see the people Always love to hear the crowd Always love to bring a party Turn it up and play it loud

Somewhere inside me There's a new direction Somewhere before me There's an open road Can't go to sleep Without that diesel singin' Somebody tellin' me It's time to go Let's ride Come on boys, let's ride

Let's ride like the wind I'll be back again

As sure as this world's spins around One day I might find a reason To shut this thing down But for now Let's ride

Somewhere inside me There's a new direction Somewhere before me There's an open road Can't go to sleep Without that diesel singin' Somebody tellin' me Tell me, it's time to go Let's ride Come on boys, let's ride Come on boys, let's ride Yeah Let's ride
