

Don't Go Away

Trace Cyrus

I can't find the words to say
All our time has wasted away
I've been dreaming about you forever, yeah
So don't you say you don't want us together, girl no

Open stakes from the start
You fall in love then it falls apart
Whoa, that's how it goes
Love burns out like a cigarette
Get real hot then it's loneliness
Whoa, that's how it goes
That's how it goes

I don't want this to end
No, I don't want this to end
I don't want this to end
Girl, I don't want this to end

We break up, you come back around
Same routine, it never slows down
Go away, don't go away
We break up, you come back around
Same routine, it never slows down
Go away, don't go away
Don't go away

She's been gone for too many days, ay
Promises won't convince her to stay, no way
Confusion starts to fuck with my mind
But that's the price that I pay, okay
I broke promises too many times
I guess it pushed you away, I'm sorry

Open stakes from the start
You fall in love then it falls apart
Whoa, that's how it goes
Love burns out like a cigarette
Get real hot then it's loneliness
Whoa, that's how it goes
That's how it goes

I don't want this to end
No, I don't want this to end
I don't want this to end
Girl, I don't want this to end

We break up, you come back around
Same routine, it never slows down
Go away, don't go away
We break up, you come back around
Same routine, it never slows down
Go away, don't go away
Don't go away

I don't want this to end, no (don't go away)
I don't want this to end, no (don't go away)
I don't want this to end, girl no (don't go away)
