

Let's Run Away

Trace Cyrus

I was like damn girl
You hard to understand girl
But you're hard to leave
Your heart I'll always keep
You told me to fall back
But I don't think you meant that
You cried before you kissed me
When I'm gone I know you'll miss me

And you keep shooting like a star
I'm always falling from the sky
Would you pick me up tonight?
When the whiskey can't take the pain away
You kiss me on the lips
And make it all okay

You replaced all the codeine
I need you to hold me
Let's run away
The train wreck was on fire
Now you get me higher
You ignite the flame

It's like damn boy
It's hard for you to change boy
You started sipping slow
But now you drink when you're alone
Thinks I keep a lot of secrets
She says I'm living for the weekend
If I get lost you know I'll come back
And nobody can change that

And you keep shooting like a star
I'm always falling from the sky
Would you pick me up tonight?
When the whiskey can't take the pain away
You kiss me on the lips
And make it all okay

You replaced all the codeine
I need you to hold me
Let's run away
The train wreck was on fire
Now you get me higher
You ignite the flame

She's my new addiction
I need you to listen
To what I have to say
Nothing compares in the middle of the night
When I'm feeling lonely and you make it alright
Nothing compares in the middle of the night
When I'm feeling lonely and you make it alright
Yeah you make it alright

You replaced all the codeine
I need you to hold me

Let's run away
The train wreck was on fire
Now you get me higher
You ignite the flame
You replaced all the codeine
I need you to hold me
Let's run away (Come on let's run away)
The train wreck was on fire
Now you get me higher
You ignite the flame (You ignite the flame in me)
