

Moving On

Trace Cyrus

Love isn't fair

In the nightttime
It's the only time we feel alive
We're hungover in the day
On the bright side
She's calling me the right guy
But I don't know if I can stay

I'm not looking for a lover
I always find another
There's girls everywhere
Things got so bad with Brenda
Flowers I would send her
But she didn't care

I'm moving on
I can't stay the night
When the feeling is right
Then maybe I'll slow down
I'm moving on
The diamond ring didn't last
Now it's all in the past
And she's feeling lost now

I had a couple secrets lovers
And we had under covers
But we didn't sleep
Some names I can't remember
Fall in love but can't surrender
I can't get too deep

I'm not looking for a lover
I always find another
There's girls everywhere
Things got so bad with Stacey
I guess she kinda played me
But love isn't fair

I'm moving on
I can't stay the night
When the feeling is right
Then maybe I'll slow down
I'm moving on
The diamond ring didn't last
Now it's all in the past
And she's feeling lost now

When I get high well it all feels make believe
Drop dead gorgeous but I always seem to leave
I got a problem when I feel they hold me down
Love's a gamble but I'll another round

If she got curves and she swerves like a Benz
Then we could a night we wouldn't forget
Say you want it we'll have bottles all around
But in the morning I'll be cruising out of town

I'm moving on
I can't stay the night
When the feeling is right
Then maybe I'll slow down
I'm moving on
The diamond ring didn't last
Now it's all in the past
And she's feeling lost now

When I get high well it all feels make believe
Drop dead gorgeous but I always seem to leave
I got a problem when I feel they hold me down
Love's a gamble but I'll another round
