

Prescriptions

Trace Cyrus

I've been drunk for a week straight
Prisoner of this heartache
Soon this will pass
Conspiracies flood my mind
I'm just wasting my time
Locked in this apartment

But you bounce right back, left me in the past
Said we'd last forever, why'd you do me like that?
You wore black on your first date
[?] danced the night away
We probably got the history, my love for you no mystery
Daggers through my heart, I think this pain is killing me
My soul is trapped in this apartment, yeah

I get so high when I feel low
Let addiction take control
Take the needle, be my poison
Prescriptions make me feel alright
I'm getting drunk like everyday is the weekend
One day I will feel alright

I pace the floors til I fall
Too much cheap alcohol
It flows through my veins
The smoke, it fills up the air
Neighbors complain, I don't care
I need it to breathe

But you bounce right back, left me in the past
Said we'd last forever, why'd you do me like that?
You wore black on your first date
[?] danced the night away
We probably got the history, my love for you no mystery
Daggers through my heart, I think this pain is killing me
Without you I just can't breathe, yeah

I get so high when I feel low
Let addiction take control
Take the needle, be my poison
Prescriptions make me feel alright
I'm getting drunk like everyday is the weekend
One day I will feel alright

I really only leave my place to hit the liquor store
Get a 12 pack, come back, I'm drowning by the door
Tatted on my chest, it's Jesus on the cross
When he's looking at me, I just feel so lost
I really only leave my place to hit the liquor store
Get a fifth of Jack, come back, I'm drowning by the door
Tatted on my neck, scripture on a cross
When I read the message, I just feel so lost

I get so high when I feel low
Let addiction take control
Take the needle, be my poison
(Take the needle, be my poison)

Prescriptions make me feel alright
I'm getting drunk like everyday is the weekend
One day I will feel alright

I get so high when I feel low
We let addiction take control
Take the needle, be my poison
(Take the needle, be my poison)
Prescriptions make me feel alright
I'm getting drunk like everyday is the weekend
One day I will feel alright
