Trace Cyrus

I met her last summer, but we never break up  
Took a trip for spring break, [?] like a drug  
I tried to be a player but Cupid took his shot  
When we first met love we were drunk in the parking lot  
We just couldn't wait backseat of the car  
All of our friends still drinking at the bar  
They all think we're crazy but I think we'll go far  
As the candles burn you stay shining like a superstar

She's got her sunglasses on as we say goodbye  
Lost in the night, she tries not to cry  
It's not over, don't say sorry  
When I'm on the West Coast, don't think you lost me  
Can the storm please send you my direction  
Can't fight addiction, you're my new obsession  
Time is moving slowly so I just watch the clock  
I can't wait to be with you, without you I go crazy, my heart stops

All up in the club, goddamn, I'm in love  
We started with a kiss, our lips felt like a glove  
I'm scared of broken hearts so I try to resist  
But after all of this, there's no way I can quit  
Let's run as far as we can, I wanna see  
If you feel what I feel for you, for me  
Went back to the city, came back baby  
We might be insane but who cares, it's meant to be

She's got her sunglasses on as we say goodbye  
Lost in the night, she tries not to cry  
It's not over, don't say sorry  
When I'm on the West Coast, don't think you lost me  
Can the storm please send you my direction  
Can't fight addiction, you're my new obsession  
Time is moving slowly so I just watch the clock  
I can't wait to be with you, without you I go crazy, my heart stops
