

Typical Suspect

Trace Cyrus

If you say you love me then I'll never say goodbye
Can you tell the truth

The season has changed
Can't forget the names
Of the girls from the spring
They were playing for keeps
I feel lost in the rain
It's always the same
I play their games
Then I push them away

How bad do you want it, girl I'm all in
I could be your lover and your best friend
She don't wanna hear another pickup line
You got looks to kill, it should be a crime

I had a real bad baby, but I found a new one
I had Jessica and Stacey, we were under the gun
We tried to make it last but then I met Maria
Talking sexy in my ear and sippin' margaritas, yeah

I got a girl but I'm single
With another on my side
And yeah, she's down to ride
Drop dead, hot mess, typical suspect

Roll up fast as a train
I'm going insane
Vodka with lemonade
Sippin' out by the shade
It's never enough
So fill up my cup
She wants my love
I can't seem to stay

How bad do you want it, girl I'm all in
I could be your lover and your best friend
She don't wanna hear another pickup line
You got looks to kill, it should be a crime

So is it true
