

Lullaby Child

Tracie Spencer

Hold out your hand
and understand
and try to realize
Don't be afraid
'cause you were made
To soar and touch the sky

Mom and dad you need
to learn to see the world
from all your childrens' eyes

Open your heart
It's time to start
to hear from me the truth
It's all up to you
In all you do
Make your visions all come true

I won't be so sad
When you get concerned
About the dreams of my youth

Lullaby, my child
It may take a while
but where there's a will
I know
There's a way

Lullaby child
Smile my child
Like me you'll be
Free someday

Lullaby my child
It may take a while
But where there's a will
Where there's a will
But where there's a will
I know
There's a way
