

Brain Crack

Tracy Bonham

Have you ever heard the sound
Of you head in the ground
And you're afraid to say
And it won't go away?
That's the sound of your brain cracking
Have you ever heard the sound
Of you head on the ground
And you're afraid to say
And it won't go away?
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
