

# Take Me with You When You Go

Tracy Byrd

You can settle down in Mexico  
Runaway join a circus show  
Whatever, baby it's alright with me  
Take a walk in the pouring rain  
Sky dive from a jet airplane  
Love like ours is all about being free

There's two chairs on the front porch  
One's yours and one is mine  
Four wheels in the driveway that'll take  
Us across the line  
It doesn't really matter if you wanna rock or roll  
Just take me with you when you go

Swim the ocean for a million pearls  
Hitchhike all the way around the world  
Fly to the moon in a rocketship I don't care  
Ride a camel cross the desert sand  
Sail away to never never land  
Imagination can take you anywhere

So be the hero that rides off into the sun  
Or a wild raging river always on the run  
Change direction like the strong four winds that blow  
Just take me with you when you go

Today, tomorrow and forever  
Every turn you make  
I want to be there - I want to be there

Live like a gypsy - chase your distant dreams  
Or get lost in the blues on Bourbon Street  
Down in New Orleans  
Believe in Heaven if you want to save your soul  
Just take me with you when you go  
Just take me with you when you go
