Over in Love

Tracy Chapman

Cold wind blows Shivers loose Hard rain To my skin soaked through So over in love with you I don't even care

Sky turns grey Black and blue Fall on me I can't be moved

So over in love with you I don't even care

Hot sun shines And lays bare Shadows cross cut Heavy air

So over in love with you I don't even care

The tide that washes in and out Reveals a heart And face worn new

So over in love with you I don't even care

I don't even care I don't even care I don't even care
