

## Between Us

Tracy Lawrence

Sometimes our loves an open door  
And we know its safe inside  
But we have slammed it shut before  
And locked our hearts outside  
But we get a handle on it  
When we let go of our pride

Sometimes we put words and walls between us  
Lose our heads and gamble with our hearts  
There've been trials and tears, doubts and fears  
Between us  
But when all things pass  
It's love that'll last between us

Love has taught us to forgive  
And time helps us forget  
Still as long as we both live  
We'll say some things we regret  
But love keeps a workin on us  
Aw cause we ain't perfect yet

There've been trials and tears  
Doubts and fears between us  
But when all things pass  
It's love that'll last between us
