

## Dead Leaves

Trade Wind

It's no use  
There's no right or wrong when you're already gone  
I move slow  
My compass spins like there's nowhere to go

Just let me fade  
Blow away like dead leaves  
Forget my face  
Just erase me  
Don't stay while I fade  
(Just let me go)  
While I circle the drain  
(Just let me go)

Just calm down  
There's no need to kick while I'm already down  
Remove yourself from the fear  
Let me waste away, put me into the ground

Just let me fade  
Blow away like dead leaves  
Forget my face  
Just erase me  
Don't stay while I fade  
(Just let me go)  
While I circle the drain  
(Just let me go)

I want to go where no one knows, put me below  
Just let me go  
I want to go where no one knows, put me below  
Just let me go

Leave me alone
