

## How's Your Head

Trade Wind

I see the weight you drag around  
And I hate those bastards that grind you down, yeah  
I know your pride and I know you die for all your friends  
But I just wanna know, no, I just need to know  
How's your head?  
How's your head?  
Tell me, how's your head?  
How's your head?
