

## Moonshot

Trade Wind

Shoot me straight to the moon  
Where I belong  
Far from you  
Choking on your abuse  
Set me free  
Free from you  
Now I'm fanning your flames  
Watching you burn  
Perfectly framed  
So now what will you choose?  
'Cause you better move  
Your years are watching you  
Yeah they're chasing you
