

# Ain't Nuthin Better

Trae

I'm just sittin' back thinkin like  
Who'da ever thought I'd be able to create some so special  
Everytime I sit and watch it man  
Swear y'all remind me of me  
My lil homies man

Look all praise out to the father  
When you in a life full of hate why bother  
Seeds planted like farmers  
Though I gotta be smarter  
For the ones that I birthed  
Even when it darker  
Even if it fade black  
Ain't no need of a barber  
I'ma deal wit it  
They know they daddy real wit it  
They still get a pride  
They still say this whatever the fine  
Though soon enough get it with time  
And to my little niggas  
The one rockin my life than  
Quicker than suicide  
For love of everything don't tell  
Em when I do the ride  
They all bliss I can't tell you  
What they do inside  
If I don't make you well hidden loafer then my tribe  
Won't lead most of they assume is what they mean to me  
Just the thought of me bein dead was a dream to me  
Lay everytime I look at her look like a team to me  
I'm only playin' they proud of what they see in me

It's like...  
I'm just sittin in the studio vibin' right now  
(Ain't nuthin better)  
Lookin that whole videos of pictures  
(And there ain't nuthin better)  
My young little niggas never cease to amaze  
(Ain't nuthin better) for real  
(Yeah, there ain't nuthin better)

Conversatin' wit my brother  
Bout how lil niggas kick it  
Even it's bullshit it don't matter them niggas wit it  
Used to steal runnin this game we never quit it  
Niggas still mean as hell don't you forget it  
J finally made it to a team feelin they fly  
His mama still on his ass he don't even comply  
Probably some where on the phone hollerin' at lil chicks  
Yeah the all in the mix  
And I ain't mad at em baby need still  
How did I train for days  
I still can't believe to'd and cut off his braids  
Now you're lookin like a lil man  
The happy feelin that I got you couldn't understand  
I showed the world when they come to family I'm dedicated  
The position the real father I was educated

Unconditional with the love never hesitated  
If we ever separated I would be devastated

Sit there thinkin like  
(Ain't nuthin better)  
Damn...  
Now I need the babies I used to love, man  
(And there ain't nuthin better)  
The crew they out there they're grown, fly as hell  
(Ain't nuthin better)  
They're too damn fly if you ask me  
(And ain't nuthin better)

You know nothin my light that  
Can give me the smile  
Until I look at y'all even though you're g  
You know I'm here to pick up the slack and you the fold man  
You ain't different at all  
And I'm ridin through the town  
Watchin houston gettin grown  
Every chance I get I try to get em on the phone  
What they got me goin through with him is kinda wrong  
That's why when we together we be in another zone  
Only pray I get to see my kids graduate  
Anything stoppin it'll prolly have to wait  
I'm tryna tighten up a bond that they could break  
I'm tryna keep her understandin' if you went straight  
I rather to you, I lay you before I float in the sky  
And if I tell you somethin' different I'd be livin a lie  
Everyone of y'all the biz little somethin' came by  
Y'all the reason I was livin, I ain't ready to die

No lie  
(Ain't nuthin better)  
I gotta thank god everyday for what he blessed me with  
(And there ain't nuthin better)  
Yeah, you know you the leader of the pack man  
Take care of your brothers  
(Ain't nuthin better)  
Baby, nicole, houston, I love you  
(Ain't nuthin better...)
