

All Luv

Trae

If you down with me for life, it ain't no question, no
I been down on my knees countin' my blessings, not stressin'
I been always standin' up for somethin' different, no
Lord knows in this life, I learned my lessons
It's all love
You can call on me, call on me, uh
It's all love
You can call on me, you can call on me

Wake up every day, tryna find the cause
Money cool, but it still don't hide the scars
For the hood, I was ridin' like we stars
Knocked down like I just came high from bars
I'm in another world, feel like I came from Mars
Some foreign name, it came with R's
Niggas know how I rock with no guitars
Look out, this smoke with no cigars
You might get flipped, shit, I can't trip
I'm in all blue, thinkin' 'bout my nigga Nip
Go on head, make a toast for my nigga Cliff
Either pour it to the curb or you take a sip
Off love, I don't forget get shit
Watchin' everything since the day I got hit
Fuck shit better, no, that I'm not with
Oh, Lord, everything else just not it
Runnin' this sack up, make this shit jump
Ain't about the money, everything else get dumped
Anything step in my way gon' get bumped
Anything get in my way gon' get slumped
I can't feel my face, all this ice cold
I'm a ghetto star, all these lights told
I ain't with too much, I move solo
Do it by my lone, these niggas might fold

If you down with me for life, it ain't no question, no
I been down on my knees countin' my blessings, not stressin'
I been always standin' up for somethin' different, no
Lord knows in this life, I learned my lessons
It's all love
You can call on me, call on me, uh
It's all love
You can call on me, you can call on me

Off in these clouds, I can't get low
Way up on haters, can't keep score
Never choose the hustle if you can't grow
Money blow, be damned I don't more
I'm flexin' on 'em, no bicep
Big steppin' on 'em, no high step
All in my waves like I'm Mike Phelps
Ain't a diamond on me, not high depth
Niggas know they can't see me like the fog
Funny the way they gossip like a blog
Stay out my business, I been out the way
.40 gon' get to barkin' like a dog
I say it's up, you know that it was stuck
Pressure, they see me pull up in the truck

Me, I'm just doin' me, I give a fuck
Try to get fly with me, I get you plucked
Way these women be choosin' me, feel like they usin' me just to be next to a
star
I don't trip, I just know who they are
She a thot, she get popped in the car
I don't do competition, this shit on me glisten, these diamonds gon' hit lik
e a spar
Any day, we can take it to war
ABN, I might take it too far

I ride, I ride (Ride)
I cried inside ('Side)
Ain't give up, I tried (I tried)
That's the way that I survived (Oh, yeah)

If you down with me for life, it ain't no question, no
I been down on my knees countin' my blessings, not stressin'
I been always standin' up for somethin' different, no
Lord knows in this life, I learned my lessons
It's all love
You can call on me, call on me, uh
It's all love
You can call on me, you can call on me
