

Alone

Trae

I been stand-up like a set of pins, they wanna strike me out
Closest homie on a different page, he wanna write me out
Niggas I got love for wanna scam, they wanna swipe me out
Wanna dead me, light me out, I hype 'em up to hype me out
Fuck 'em, though

I'm so alone, I'm so alone
So alone, so alone
I'm so alone, I'm so alone
I'm so alone

Right now, I'm alone on this throne, let me stay focused
'Cause I know niggas ain't know what I'm on
No matter how hard I try to do right, I'm always wrong
Livin' this shit called life, it'll knock you down if you don't fight back
When I'm on the mound, I bet it's all strikes, get 'em from 'round me
It's best to be to yourself when on your head, it's a bounty
For the right price, you never know, your fam probably knock it off
Let 'em put them words inside my mouth, they know that nigga P don't ever ta
lk
I told her I'd rather be alone 'cause I'ma be that day they chalk me out
And I ain't never seen a two-seater casket, nigga, so knock it off
Soon as you put your guard down, it get tragic, now they done stole off
So it's a bowling ball or golf, I bet I still put a hole in y'all
Will you trust me? Hold on
Or would you tell me if it's fuck me? So long
Nigga, I been on my own, who to call on when this shit all wrong?
And plus my dogs gone, they done made Heaven not a home (Heaven not a home)

Ain't need to speak on how I feel, they probably ain't gon' get me
No point to tell 'em keep it real, they probably ain't gon' hear me
I keep it solid when they don't, that's probably why they fear me
Hell, I'ma do it by my lone', they probably ain't gon' feel me
I know if you still my dog, you gon' be comin' with me
I ever think you did me dirty, ain't gon' get shit with me
I watched them make it to the table, told me they can't fit me
So now I know if I need help, no one gon' come and get me
If loyalty was 'bout a price, you niggas can't afford me
The hood said I was sent from God, you niggas can't destroy me
I felt the hate and showed you love, how you gon' ignore me?
I guess I'll pull up, do it big, how you gon' avoid me?
You never been about a dollar, how you niggas change?
You in your feelings, you ain't holler, you movin' strange
Why play it fake if you ain't gotta? You movin' lame
I guess I'm headin' somewhere different, I'm movin' lanes

I'm so alone, I'm so alone
I'm so alone, so alone
So alone, I'm so alone
I'm so alone, so alone

I had niggas 'round me that was just for self
Demons movin' foul, got hit below the belt
If no one else got me, I know I got myself
I swear this the loneliest I ever felt
I never asked for help
It's crazy how they really tried to write me off

You're supposed to ride for me right or wrong
It's hard dealin' with all these scars
You was on the scene, but you ain't play your part
Told him never change, just remain and just be you
Instead of that, he changed for some change like we ain't equal
Even let you slide 'fore you lied knowin' I knew the truth
Ain't no hard feelings, I'm just doin' me, okay
I know niggas really tried to warn me, but, sorry, I am too elite

The way I'm feelin' inside, I probably ain't gon' fight it
Gotta accept you did me wrong, I know you ain't gon' right it
I showed the world I'm goin' up, that's why you got excited
It ain't no hate, I'm doin' me, you just ain't invited
And if you was, know I kept it real
You said it's love, I know it ain't real
Guess they forgot about the hurt, how it heal
It's different when your people do you cold and get you killed

I'm so alone, I'm so alone
I'm so alone, so alone
So alone, I'm so alone
I'm so alone, so alone
I'm so alone (So alone), I'm so alone (So alone)
So alone, so alone
So alone, I'm so alone (So alone)
I'm so alone, so alone

So alone, so alone, yeah
So alone
