

# Dayz I Prayed

Trae

"Call my name (hey)  
So sweet and plain  
But now you're gone and the  
Pain comes back again  
And I find"

Dayz I prayed when nights were cold  
Nowhere to go but still I roll  
Too many lights it take it's toll  
So I stay below just play my roll

Stay in your place cause I cannot fake it  
I would not hide it no  
Father forgive me I know I'm sinning  
I was just trying to grow  
Swear they was shady played me for crazy  
Thinking my eyes were closed  
Thought they was was my family I ain't deserve  
How they tried to play me low

They know what it is when I spot em  
They told me I'll stay at the bottom  
I give it to all of my people  
I want em to know that I got em  
Don't matter the weight on my shoulders  
I stay on roll like a motor  
Imma be here when it's over  
Don't matter the fight Imma soldier

Dayz I prayed when nights were cold  
Nowhere to go but still I roll  
Too many lights it take it's toll  
So I stay below just play my roll

Stay in your place cause I cannot fake it  
I would not hide it no  
Father forgive me I know I'm sinning  
I was just trying to grow  
Swear they was shady played me for crazy  
Thinking my eyes were closed  
Thought they was was my family I ain't deserve  
How they tried to play me low

Yeah too many times I felt left out  
I was looking for help and nobody helped out  
Soon as they got they brick, damn they crippled out  
It was under they rug and got swept out  
I only did it for love but wasn't nothing there  
I been a one man team nobody playing fair  
They way they left me alone tell them I couldn't care  
I know the devil is working, somebody say a prayer  
I was sick time and time the same thing  
Never mention king give truth the same name  
Over twenty years the heat the same flame  
Tell'em they be in but leave the same game  
All these dayz I prayed I'd get a fair shot  
These niggas ten on one can't get a fair block

Hustle there all my life can't get a fair spot  
Off the top they time off like rare clocks

Dayz I prayed when nights were cold  
Nowhere to go but still I roll  
Too many lights it take it's toll  
So I stay below just play my roll

Stay in your place cause I cannot fake it  
I would not hide it no  
Father forgive me I know I'm sinning  
I was just trying to grow  
Swear they was shady played me for crazy  
Thinking my eyes were closed  
Thought they was was my family I ain't deserve  
How they tried to play me low
