

I'm Still Around

Trae

(Hope you're listening while I'm still around...)

It's hard to deal wit people when they said it was love but wasn't nothing s
hown

I know ain't nothing promised and so I talked to god before my life is gone

I guess I'm gettin old because I tell myself I gotta write my wrongs

I don't believe in lies I had to see the truth when all the hype was gone

Tryna find a way to smile I got a child on the way

If I can get my problems let 'em pile for today

Knowing inside that I deserve everything

That I got forreal it's kind of hard being Trae

Still I pray I got to do my best

All these situations ain't gon let me rest

How they did me dirty really hurt my spirit

Hit me in my heart guess I forgot my vest

Livin my life instead I'm watchin it walk by

Lookin at people as only hopin they stop by

Missin my brother I'm really hopin he stop by

I know he dead but see together we got by

Me and you you and me we all we got

We can still here but the team was fallin out

Up in heaven man I hope he was smiling out

Devil working when I see em I call em out

Messed up Lil Steve got 25

Think he still in a cell doin life

Dog still overseas messed up

Lord knows I was still ridin until they do em right

I'm out my breathe but I gotta fight it

I can't hide it ain't nothin in me excitin

Ain't no point to reach out everyone denied it

Ain't no point to speak on em I know they tried it

What's on my brain I don't know where to start

I'm just tryna be stronger I can't show no weakness

I gotta keep movin they say it's my time

But the wait gettin longer and I cannot take it at all

Why they don't answer my calls

Thought they was my people guess it was dead

When you ain't been official might beef about this 1

When they motive is lethal I want to live

Gotta legacy lifted I need to see it

Wait keep pressing my back till I'm up the hill

Know I gotta keep movin no sittin still

Truth you gotta keep no sittin still

This 1 here for Lil Nicole, Lil Houston Jerry, baby taco

Just know that your daddy got you

Everything that I got you can have no question

Always remember you can't let nobody stop you

I've been around and they faded out but I'm still around, yeah

They hangin around so I hold it down and I'm still around, yeah

I've moved around and I made it out but I'm still around, yeah

I'm still around, yeah

I hold it down, yeah
