Out here
Deep inside, I know I'm out here
I can't tell you how we got here
I'm tryna find my way up out here (Kelly)
Either way, you know I'm out here
I'm tryna make it while I'm out here
I see the road, but it was blocked here
I'm tryna find my way up out here

I'm losin' days, so I gotta pray
I feel I've been in pain since they went away
If my dog give me a call, I was on the way
Feel everything he love probably gone away
What you said? (What you said?)
Instead, I had to thank you 'fore I'm dead ('Fore I'm dead)
And never switch up on 'em with that bread (With that bread)
And never let them niggas see you scared (See you scared)
Know it hurt, but ain't no way for me to cry
(I know it hurt, but ain't no way for me to cry)
I miss my dog, I wish that I can fly
(I really miss my dog, I wish that I can fly)

Out here
Deep inside, I know I'm out here
I can't tell you how we got here
I'm tryna find my way up out here
Either way, you know I'm out here
I'm tryna make it while I'm out here
I see the road, but it was blocked here
I'm tryna find my way up out here

Through the pain, I gotta stand tall
I ain't gon' break, no
I ain't gon' wait, y'all
And my name gon' wake y'all
Niggas duckin' smoke
Sick of goin' through it, I ain't goin' broke
If they ain't the captain, they gon' sink the boat
Everything about these niggas be a joke
