Trae

No can't trust these hoes  
You know they be lurking  
They've been here since we hit the door  
You know we been working  
They know I put in work  
Chicks thirsty  
Chicks thirsty  
Thirsty  
Chicks thirsty  
And been working  
They know I see the thirst  
I see you lurking

Yea I don't trust hoes, bitches hot as the summer  
Anytime time I walk into something they on my bumper  
They can find me in the club suiting jumpers  
Then I'm all time high I'm doing numbers  
Hoes trying to fix my pipe like a mechanic  
Told her she going to get no place you couldn't stand it  
Standing got me somewhere mars I'm off planet  
Jumping out the whip so hot you couldn't feel it  
Bitches ain't shit that's your mammas  
Money in the safe bank account all commas  
Everything froze these diamonds Obama's  
Keep hoes all on the chord no honor

No can't trust these hoes  
You know they be lurking  
They've been here since we hit the door  
You know we been working  
They know I put in work  
Chicks thirsty

And been working  
They know I see the thirst

Uh pull up stunt truck me in the front  
A king I can do anything that I want  
30 days on the road a million a month  
Rolling up on the plane  
Everywhere I go they know my name  
You heard the song fuck her and sing

Tell them pass me the ball I better score  
I'm all over the game  
Your bitch mad you call her up her name  
I pull my car up I don't need no key  
I just push a button and it start up  
That's tailored game no ordinary problems  
I got rich ones  
When it comes to those dollars I got big funds  
I see they go stronger when it come on to the thirsties  
I stay ducking and dodging
