Trae

Look at my tick
Look at my tick
Look at my tick
Look at my tick (in the work)

Where was you when I was putting in that work (in the work)
Trying to get it all like it ain't enough (in the work)
Now I'm getting everything I deserve (in the work)
Where was you when I was putting in that work (in the work)
Where was you when I was putting in that work (in the work)
Where was you when I was putting in that work (in the work)
Now I'm getting everything I deserve (in the work)
Where was you when I was putting in that work

I got this tick on me
I used to be broke
Remember you set it on me
Not no more
Nigga don't fuck with mine
Nigga don't fuck with mine
All these diamonds on me
Got me so cold
Nigga my money to buy
Your money too low
Don't come my way
Don't come my way (in the work)

Where was you when I was putting in that work (in the work)
Trying to get it all like it ain't enough (in the work)
Now I'm getting everything I deserve (in the work)
Where was you when I was putting in that work (in the work)
Where was you when I was putting in that work (in the work)
Where was you when I was putting in that work (in the work)
Now I'm getting everything I deserve
Where was you when I was putting in that work (in the work)

Yeah all these rips and these hoes they sending me
Nigga you ain't a friend to me
Ain't no point to pretend to be
This money that I got I ain't get for free
Your fake diamonds are offending me
You better get up out my face
I'm quick to trip

Yeah I'm a fool with it
I was running through the H with a few hoes
these new foes
On the way to King John with a few chains
When I pull up to the shop those get froze
Nigga I don't even fuck with the bank
Hustle like folk with your bank
Diamonds so clear they was blank
I go and get it no limit like I am a
I get this money to blow it
Don't nothing come before it
I see the hate they showed it
To them haters I'm reloading

Hey hey hey hey oh

Where was you when I was putting in that work (in the work)

Trying to get it all like it ain't enough

Now I'm getting everything I deserve

Where was you when I was putting in that work (in the work)

Where was you when I was putting in that work (in the work)

Where was you when I was putting in that work (in the work)

Now I'm getting everything I deserve

Where was you when I was putting in that work (in the work)
