# Red Lights Dance

**Tragic Black**

Snap, snap, snap!
Cameras flash
Cross you heart and hope you last
You're so close it's tough to say
Don't ask us why just dance away

Pray that you survive when you see the flashing lights.
Before they knock you on your back, kiss the ground and kiss it
 fast
Pray that you survive when you see the flashing lights.
Before they knock you on your back, kiss the ground and kiss it
 fast

Bullet shells can't be found by you lying on the bloody ground
Suddenly before your eyes see the cars passing by
Red lights dance in black
You started walking back
Your heart was filled with so much joy when we seen it get dest
royed

Snap, snap, snap!
Cameras flash
Cross you heart and hope you last
You're so close it's tough to say
Don't ask us why just dance away

Pray that you survive when you see the flashing lights.
Before they knock you on your back. kiss the ground and kiss it
 fast
Pray that you survive when you see the flashing lights.
Before they knock you on your back. kiss the ground and kiss it
 fast
