

## Ain't No Easy Way

Train

Up in the northwest the girls always say  
If he's the one don't let him get away  
But then it rains  
And love, it swims away

I been living here for sometime now  
Still not sure if I belong  
Yeah, it's easy in the mountains  
And it's easy in the sky  
But when it comes to love they always say  
There ain't no easy way

Down in the south there's a star spangled thing  
Girls bless your hearts and they all seem to sing  
But then the heat  
And hearts stop beating all the same

I been coming here for sometime now  
Still not sure I know the song  
Yeah it's easy in the easy and it's easy in the sand  
But when it comes to love they always say  
There ain't no easy way

This is for all the lonely people  
Thinking that love has passed them by  
We can try  
But there ain't no easy way

I been on the run for so long now  
That I forget just what it's from  
And I thought it would be easy when I left you there instead  
But when it comes to love you always said  
There ain't no easy way

There ain't no easy way  
There ain't no easy way  
Ain't no easy way
