

It's Everything

Train

Sailin' on this moody blue
Findin' stars that look like you
Knowin' that you would never leave me all alone
With bills to pay with my heart
And things to tell you, where do I start?

I'm gonna miss the love in your kiss
And I'm gonna wish upon stars just like this
But what I'm really gonna miss most of all
Besides every day with you, I recall
Oh, it's everything

Keepin' on, it's the only way
But oh, what might have been?
Livin' forever never really seemed impossible
Now, the moss just grows in my heart

And I'm gonna miss the love in your kiss
And I'm gonna wish upon stars just like this
But what I'm really gonna miss most of all
Besides every day with you, I recall

Bring me mornin'
Sing me light
There's no sun in sight
'Cause every single night without you
Feels like no one else could ever get me through

And I'm gonna miss the love in your kiss
But I will remember us just like this
And what I'm really gonna miss most of all
Besides every day with you, I recall
Oh, it's everything
Mmm, it's everything
Ooh, mmm, it's everything
Whoa, you're everything
