

## Serious

## Train

I wanna see all your colors  
Give me the one that nobody ain't never seen  
I watch you walk and I suffer  
The way you talk, you look hard like me

Don't speak, just show me the antidote  
Don't leave 'cause maybe there's more  
Want you to feel all my colors  
The different color only I can be

Don't wanna lose it  
Better use what you got  
No one forgot that  
No matter who's here  
Someone gonna get caught  
Better get caught a lot

Are you serious?  
I know your body is  
They say you're dangerous  
I don't care, no  
Don't wanna fall in love  
You're gonna make it hard  
But if I lose my mind  
I don't care, no

Are you serious?  
I don't care, no  
Are you serious?  
I don't care, no

Can't see your cloud but it's raining  
Don't see your crown but hey you look like a queen to me  
Let's take these hearts and keep on painting  
Till every color runs together and we

Don't wanna lose it  
Better use what you got  
No one forgot that  
No matter who's here  
Someone gonna get caught  
Better get caught a lot

Are you serious?  
I know your body is  
They say you're dangerous  
I don't care, no  
Don't wanna fall in love  
You're gonna make it hard  
But if I lose my mind  
I don't care, no

Are you serious?  
Are you serious?  
I don't care, no  
Are you serious?  
Are you serious?

I don't care, no
