

Starting Over

Trampled by Turtles

Starting over ain't so bad
Not the home you thought you had
Amputating heart to heart, burn it to the ground
Make the beds up go to work fall to pieces have you heard
Prairie breaking full of nerve let's get out of town

Oh it's draining a change of pace
Hasty visions hide your face
Don't let go
Don't let go

Clouds above me clouds below
Where'd you come from where'd you go
Wear your boots out on the road, you could break my heart
At the airport up all night
Blurry vision what a sight
Get me through just one more night then I'll turn it off
Sure as hell I'll get back to you
Pieced together ran right through
Don't let go
Don't let go

Don't fool around and fall apart
Silhouette dreams right from the start

Cards that play now let me stay now I've been gone so far away
I still stay up much too late, here we go again
I found love it was for free
Singing oceans drowning me
Can you hear it, can you see
You could break my heart
My address you know it don't change
Out of time out of range
Don't let go
Don't let go
Don't let go
Don't let go
