

## Clean Laundry

Transviolet

I hate this shit  
Hate this party  
My friend's wasted  
Leaning on me

I like nobody  
You with nobody  
Sipping side eyeing  
And I know I know I know

There's a diner  
Black black coffee  
Kiss at my place  
On clean laundry

I like nobody  
But I like your body  
I got no sorries  
And I know I know I

Wanna be your winter, keep you warm, boy  
Spring break jet set to the coast  
I wanna be your summer leave you cold  
Yeah, do I do I do I, I do  
Gonna break your heart I know, I know better  
Moving too fast, I do, but whatever  
Do I do I do I do I do I do I do I, I do  
Yeah, I do  
I know, I do

Walk down sixth street  
Smells like laundry  
Got me thinking  
Want you on me

I like nobody  
But I want your body  
You won't be sorry  
And you know you know

I wanna be your winter, keep you warm, boy  
Spring break jet set to the coast  
I wanna be your summer leave you cold  
Yeah, do I do I do I, I do  
Gonna break your heart I know, I know better  
Moving too fast, I do, but whatever  
Do I do I do I do I do I do I do I, I do  
Yeah, I do  
Yeah, I do  
I know, I do

I hate this lavish party, slender souls  
Like actors cast in gender roles  
You're anti social, rock and rolla  
Bittersweet like your vodka and cream soda  
And I wasn't looking  
But now all I see is you

Will you give me eyes  
Will you try my luck?  
Will you break my heart? I want you to

Wanna be your winter, keep you warm, boy  
Spring break jet set to the coast  
I wanna be your summer leave you cold  
Yeah, do I do I do I, I do  
Gonna break your heart I know, I know better  
Moving too fast, I do, but whatever  
Do I do I do I do I do I do I do I, I do
