

I'll be your opiate  
You take a hit, I'll take you down with me  
Send you nylon looks  
Got looks to kill, want you all over me

I want to get close  
Want to get you home  
Want your hands in my hair  
I want you alone  
I want to get close  
Want to get you home  
Want your hands in my hair  
I want you alone  
I want you alone, I want you alone  
I want you alone, I want you alone

I'll be your elegance  
Got silk and lace and you all over me  
Be my turbulence  
Come shake me up, go crashing down on me

I want to get close  
Want to get you home  
Want your hands in my hair  
I want you alone  
I want to get close  
Want to get you home  
Want your hands in my hair  
I want you alone  
I want you alone, I want you alone

I want to get close  
Want to get you home  
Want your hands in my hair  
I want you alone  
I want to get close  
Want to get you home  
Want your hands in my hair  
I want you alone

I want to get close  
Want to get you home  
Want your hands in my hair  
I want you alone  
I want to get close  
Want to get you home  
Want your hands in my hair  
I want you alone  
I want you alone, I want you alone  
I want you alone, I want you alone
