

# Easy On Me

Transviolet

Easy on me

Here's another broken hallelujah (hallelujah)  
Falling on my knees with my hands to ya  
Hoping you hold me while you breathe now  
Hoping you know it's all I need now

Baby be easy on me  
Baby be easy on me  
'Cause I'm fresh off the fight  
Running for cover  
Straight into your arms, tell me it's alright  
Baby be easy on me  
Be easy on me  
Easy on me

Easy on me  
Baby be easy on me  
Easy on me, easy on me  
Easy on me  
Baby be easy on me  
Easy on me, easy on me

When the truth is too hard to believe in  
So sharp it cut me, bleeding  
Will you be the one to break it to me?  
So I can survive it cutting through me

Baby be easy on me  
Baby be easy on me  
'Cause I'm fresh off the fight  
Running for cover  
Straight into your arms, tell me it's alright  
Baby be easy on me  
Be easy on me  
Easy on me

Easy on me  
Baby be easy on me  
Easy on me, easy on me

There's a million voices echoing my every thought [?]  
But yours has always been the only I cared about  
Never meant to take it out on you my love  
I'm just hurt and fighting like a wounded animal  
There's a million voices echoing my every thought [?]  
But yours has always been the only one I cared about  
Never meant to take it out on you my love  
I'm just hurt and fighting like a wounded animal

Baby be easy on me  
Baby be easy on me  
'Cause I'm fresh off the fight  
Running for cover  
Straight into your arms, tell me it's alright  
Baby be easy on me  
Be easy on me

Easy on me

Easy on me

Baby be easy on me

Easy on me, (easy on me) easy on me

Easy on me

Baby be easy on me

Easy on me, (easy on me) easy on me
