Freak Like Me

Transviolet

Lost in a dream
I had when I was young
No, I never woke up from it
I broke a chain
I turned and ran
No, I never looked back again

Is there anybody out there?
Hello, can you hear me?
Or am I just screaming to the void?
I'm not looking for a savior
I just need somebody
Telling me I'm not in this alone
'Cause I'm feeling like a creep here
Standing on the outside
Tunnel vision, stares cut to the bone
I'm not looking for a savior
I just need somebody
Telling me I'm not in this alone

Is there anybody out there?
Are you a freak like me?
Gettin' kicked out of somewhere
Are you a freak like me?
Tell me where you wanna go
And baby we will go
You don't gotta walk that way alone
Fuck this place, we don't gotta go back there
Is there anybody

It's all on me, yeah
Everything's my fault
Locked in a bathroom stall, right now
Death of a dream
It's running down my cheeks
Won't let 'em see me weak, like this

Is there anybody out there?
Hello, can you hear me?
Or am I just screaming to the void?
I'm not looking for a savior
I just need somebody
Telling me I'm not in this alone
'Cause I'm feeling like a creep here
Standing on the outside
Tunnel vision, stares cut to the bone
I'm not looking for a savior
I just need somebody
Telling me I'm not in this alone

Is there anybody out there?
Are you a freak like me?
Gettin' kicked out of somewhere
Are you a freak like me?
Tell me where you wanna go
And baby we will go
You don't gotta walk that way alone

Fuck this place, we don't gotta go back there
Is there anybody out there?
Is there anybody out there?

Is there anybody out there?
Hello, can you hear me?
Or am I just screaming to the void?
I'm not looking for a savior
I just need somebody
Telling me I'm not in this alone

Is there anybody out there?
Are you a freak like me?
Gettin' kicked out of somewhere
Are you a freak like me?
Tell me where you wanna go
And baby we will go
You don't gotta walk that way alone
Fuck this place, we don't gotta go back there
Is there anybody out there?
Is there anybody out there?
