

## Future

Transviolet

Lark, you never did get that far  
Did ya, did ya?  
I thought it wouldn't be this hard for us  
Know you're blue  
Lover it'll all turn around, you'll see  
It always does for you and me  
It always does

I can't see the future  
Lately luck hasn't been a friend I know  
I can't be your sunlight  
But I'll hold you when you're cold

I got you  
Kiss me with your painted soul  
I got you  
No matter what the future holds  
I got you

It's a fact, the past it's just the past  
But when you do look back  
See how far we've come  
On love it'll all turn around, you'll see  
Always does for you and me  
It always does

I can't see the future  
Lately luck hasn't been a friend I know  
I can't be your sunlight  
But I'll hold you when you're cold

I got you  
Kiss me with your painted soul  
I got you  
No matter what the future holds  
I got you

I got you, painted soul  
No matter what the future holds  
I got you, painted soul  
No matter what the future holds  
I got you  
I got you (I got you)

I got you  
Kiss me with your painted soul  
I got you  
No matter what the future holds  
I got you
