

Keep You

Transviolet

Kinda makes me sad
This feeling is so surreal
And maybe I'd rather run
But you didn't stop me

And I wasn't the one
Hiding the way I feel
Now I can't believe I believed it
Was it all a rose colored lie?

Go if you wanna go
I guess we weren't that close
Got me feeling deep blue
So if you're letting go
Go on and run back home
I'm not gonna keep you

Go if you wanna go
I guess we weren't that close
Got me feeling deep blue
So if you're letting go
Go on and run back home
I'm not gonna keep you

When you got it bad
You throw your care to the wheel
And maybe I held the gun
But you didn't dodge it

And I wasn't the one
Fighting against the reel
Did you always know you were leaving?
Was it in the back of your mind?

Go if you wanna go
I guess we weren't that close
Got me feeling deep blue
So if you're letting go
Go on and run back home
I'm not gonna keep you

Go if you wanna go
I guess we weren't that close
Got me feeling deep blue
So if you're letting go
Go on and run back home
I'm not gonna keep you
