

# Love And Power

Transviolet

It's so fitting  
He's swaying to Dylan  
Singing she tastes  
Tastes just like a woman  
I like em bad  
And he's my supervillain  
Oh oh, oh oh oh

Is it love or is it self destruction  
I gotta feel like I'm tied down to something  
Is it this simple, scarlet red seduction  
Uh huh, oh oh oh

It's not about love, it's about power  
And when I'm riding on top  
It feels like I got it now  
No, it's not about love  
It's about power  
And baby if I can break you  
Feels like I got it now

It's so twisted  
I'm your darkest secret  
Manipulation  
But who's falling deepest  
Is it a weapon  
Or a fatal weakness  
X-rated sweetness

It's not about love, it's about power  
And when I'm riding on top  
It feels like I got it now  
I'm pushing past every limit  
I wear this armor well  
I'm scared, but I can't admit it  
Gotta protect myself  
No, it's not about love, it's about power

It's not about love, it's about power  
And when I'm riding on top  
Feels like I got it now  
No, it's not about love, it's about power  
And baby, if I can break you  
Feels like I got it now  
I'm pushing past every limit  
I wear this armor well  
I'm scared, but I can't admit it  
Gotta protect myself
