

# Makes Me Happy

Transviolet

I heard I'm on your mind  
It keeps you up at night  
I'm sad to say it might  
Kinda make me happy

Don't you dare fucking call me  
Saying that you want me  
You always come running back  
Oh no I know this part of the act  
Oh oh

You'll be crying like you mean it  
Like I could believe it  
Like I could take you right back  
Back to whatever we had  
It's so like you

I heard I'm on your mind  
It keeps you up at night  
I'm sad to say it might  
Kinda make me happy  
Oh no tell me is it hard  
Not getting what you want  
I heard she broke your heart  
It kinda makes me happy

Go on call me crazy  
Just don't ever call me baby  
Don't ever call me again  
Don't even look at my friends  
They don't like you

I heard I'm on your mind  
It keeps you up at night  
I'm sad to say it might  
Kinda make me happy  
Oh no tell me is it hard  
Not getting what you want  
I heard she broke your heart  
It kinda makes me happy

I heard I'm on your mind  
It keeps you up at night  
I'm sad to say it might  
Kinda make me happy  
Oh no tell me is it hard  
Not getting what you want  
I heard she broke your heart  
It kinda makes me happy
