

Ocean

Transviolet

There's an ocean inside my home
Pullin' its victims out to sea
Touching everything I own
I run from it
It catches me

And when it hits me
I let it hit me
And when it hits me
I let it hit me

There's a canyon in the living room
Where everything gets sucked into
And everybody holds their breath
Terrified they might be next

Don't let it get me
Don't let it get me

Hard to remember
Can't fix it all
Wish things were different
Wish we could talk

Hard to remember
Can't fix it all
Can't fix it all
Can't fix it all

Hard to remember
Can't fix it all

And when it hits me
I let it hit me
And when it hits me
I let it hit me

Don't let it get me
Don't let it get me
Don't let it get me

Hard to remember
I can't fix it all
Wish things were different
Wish we could talk

Hard to remember
Can't fix it all
Can't fix it all
Can't fix it all
