

# One For The Angels

Transviolet

Didn't I, didn't I, didn't I tell you so  
I could hold the weight of your world if you wanna lose control  
You don't got a, you don't got a, you don't got a thing to prove  
And if we mess it up, who really cares? We're only passing through

This one's for the angels  
You always been an angel, haven't you, my love?  
You're the road less taken  
But it don't gotta be a lonely one

Honey, you  
Have always been a light  
Honey, you  
Have always been a light  
In my life

When you feel, when you feel, when you feel all alone  
Shadows on the wall are all linked up because the light is close  
Don't you see, don't you see, don't you see I want gold  
'Cause even if you're wasted, you're still the one that I'll be taking home

This one's for the angels  
You always been an angel, haven't you, my love?  
You're the road less taken  
But it don't gotta be a lonely one

Honey, you  
Have always been a light  
Honey, you  
Have always been a light  
In my life
