

## Small Victory

Transviolet

We're so unimpressive  
And they're so under pressure  
It's the wrong way to die  
But we got fast and turn up  
Can't find it, the silence  
Spill coffee, look at me spiral  
You'll see on the metro 'round

I just need a small victory  
A silver line to get me by  
I just need a win, a need on the side  
An arrow shot, a tunnel light

I just need a win, I just need a high  
I just need a win, I just need a  
I just need a

Put tape on my webcam  
My boyfriend thinks they're watching  
They must be brought to tears  
Cause I don't really do much  
Don't mind it, some chaos  
Someone broke in my car window  
They stole my damn AUX cord

I just need a small victory  
A silver line to get me by  
I just need a win, a need on the side  
An arrow shot, a tunnel light

I just need a win, I just need a high  
I just need a win, I just need a  
I just need a

Why is there still?  
Keeping me up?  
Why is there still?  
Keeping me up?

I just need a, I just need a  
I just need a small victory  
A silver line to get me by  
I just need a win, a need on the side  
An arrow shot, a tunnel light

I just need a win, I just need a high  
I just need a win, I just need a  
I just need a
