

Under

Transviolet

Can't take back what you took from me
Still scared to show off an ability
Still studder when I speak
The tip of my tongue under lock and key

Try to run from the pain
But it drives me in
Try to drink it away
But I learned to swim
Try to hide from the hurt
But it found me out
Guess I'll stare it down

In the dark, Imma fly
Like, like the moon in a black sky
On the rise like a new world wonder
Pull me down but I won't go under
Underground, I'm a geyser
In the pit, I'm the viper
On the rise like a new world wonder
Pull me down but I won't go under
But I won't go under, no I won't go under
On the rise like a new world wonder
Pull me down but I won't go under

I tried to draw that red line
Softly I always apologise
But I'm sick of being polite
Hoping your ego ain't here to fight

Try to run from the pain
But it drives me in
Try to drink it away
But I learned to swim
Try to hide from the hurt
But it found me out
Guess I'll stare it down

In the dark, Imma fly
Like, like the moon in a black sky
On the rise like a new world wonder
Pull me down but I won't go under
Underground, I'm a geyser
In the pit, I'm the viper
On the rise like a new world wonder
Pull me down but I won't go under
But I won't go under, no I won't go under
On the rise like a new world wonder
Pull me down but I won't go under

I'm not gonna fade (I'm not gonna fade)
I'm not gonna fade out
I'm not gonna break, I'm not gonna break down
Even if I fall, I'm not gonna stick down
I'm not gonna fade (I'm not gonna fade)
I'm not gonna fade out (fade out)
I'm not gonna break, I'm not gonna break down

Even if I fall, not staying down

In the dark, Imma fly
Like, like the moon in a black sky
On the rise like a new world wonder
Pull me down but I won't go under
Underground, I'm a geyser
In the pit, I'm the viper
On the rise like a new world wonder
Pull me down but I won't go under
But I won't go under, no I won't go under
On the rise like a new world wonder
Pull me down but I won't go under
No, I won't go under, no I won't go under
On the rise like a new world wonder
Pull me down but I won't go under
