

# If Looks Could Kill

Transvision Vamp

If looks could kill, I'd never look at you again  
If words could hurt I'd never talk to you again  
If fate should spill into your life tonight  
Everything forever tonight  
You know what I'm saying  
If looks could kill, I'd never look at you again  
I'd never look into your eyes  
I'd never look at you again  
And then mabey, just for the thrill baby  
I may look at other men  
- if looks could kill  
I got no time for suckers, no time for loons  
If the beat don't rock, don't play my tune  
You know what I'm saying  
You know what I'm saying  
If looks could kill, I'd never look at you again  
I'd never look into your eyes  
I'd never look at you again  
And then mabey, just for the thrill baby  
I may look at other men  
If looks could kill, I'd never look at you again  
I'd never look at you again  
I'd never look into your eyes  
If looks could kill
