

## Backstabbed

## Trapped Under Ice

Backstabbed in my past  
I'll survive, won't be my last  
I suffer and wait for the day  
We see each other

Backstabbed once again  
I'll survive, won't be my end

Backstabbed, too bad  
That it happened this way  
Just as I catch my breath  
You take it away

Going to make you pay  
Watch you suffer
