

## Other Side

## Trapped Under Ice

It won't be long now  
Everyone I love is fading out  
Going to make you proud  
While I'm alive  
See you on the other side

I'm the only one left  
Everyone I love will say goodbye

Got to be good so when I die  
I see you on the other side

So close that I can feel you  
So close that I can feel your hands  
Reach out for mine
