

Above It All

Trapt

We're gonna get stronger
We're gonna go farther
Above it all we rise

Get back up again
No matter how far down you've been
And where they've left us all for dead
That's where they'll find us born again

We're gonna get stronger
We're gonna go farther
Above it all we rise
We're gonna be faster
We're gonna be better
Above it all we rise
Above it all we rise
Above it all we rise

Feeding off the pain
Only the strong survive this way
What doesn't kill you gives you strength
You've got your battle scars to blame

We're gonna get stronger
We're gonna go farther
Above it all we rise
We're gonna be faster
We're gonna be better
Above it all we rise
Above it all we rise
The higher ground we climb
And always to greatness we strive
We won't be outshined
Above it all
Above it all we rise

We're gonna get stronger
We're gonna go farther
Above it all we rise
We're gonna be faster
We're gonna be better
Above it all we rise
Above it all we rise
The higher ground we climb
And always to greatness we strive
We won't be outshined
Above it all
Above it all we rise
