Trapt

My heart's been aching for a safe retreat
A place for cover and security
Somewhere that I can really call my own
A place where I know that I'm not alone

In the home you made for me
I know I belong here
I know I belong
I know I belong here

My real life with you is like a dream
You've taken care of every fantasy
We're in a place where only love can grow
There isn't anywhere that we can't go

In the home you made for me
I know I belong here
I know I belong
I know I belong here
In the home you made for me
I know I belong here
I know I belong
I know I belong here

Yeah you make a house a home
You make it
Oh you know how to make a house a home

I know where I want to be
I know where those open arms
Are there to welcome me

To the home you made for me
I know I belong here
I know I belong
I know I belong here
In the home you made for me
I know I belong here
I know I belong
I know I belong here

Yeah you make a house a home
You make it
Oh you know how to make a house a home
You make it
Oh you know how to make a house a home
