

Pride

Trapt

You know you've got to have pride
You know you've got to have pride
You've got to have pride

I got mine
Do you got yours
Are you living a life
You would die for
There ain't no line
That you can't hold
There ain't no place
That you can't go
There ain't no way
That you will fold

Nobody can take it from you

Don't be sorry for who you are
Stand tall for what you know is right
You know you've got to have pride
Don't apologize at all
You don't ever have to hide
You know you've got to have pride

You've got to have pride

We don't hide
We don't run away
No white flag
Will ever be raised
There ain't no word
That you can't say
There ain't no dreams
That you can't chase
You are the one
Who will not break

Nobody can take it from you

Don't be sorry for who you are
Stand tall for what you know is right
You know you've got to have pride
Don't apologize at all
You don't ever have to hide
You know you've got to have pride
You've got to have pride

I won't be pushed around
I won't be made to obey
You gotta wear it proud
Don't you give it all away

I want to see what you're made of
Who you are
When push comes to shove
I want to see what you're made of
Show the world

Who you have become

Don't be sorry for who you are
Stand tall for what you know is right
You know you've got to have pride
Don't apologize at all
You don't ever have to hide
You know you've got to have pride
You've got to have pride

You've got to have pride
You've got to have pride
You've got to have pride
